New Home Owners:

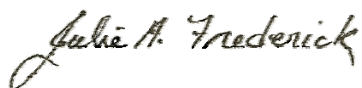

Need to assess your furnace? Call Metzger's – that's what we did.

My husband and I bought a new home and had no idea what shape our furnace was in. We felt it was noisy, old, and inefficient but needed to talk with someone we could trust; someone who wouldn't sell us a furnace if we didn't really need one. Metzger's Heating and Cooling treated us right. They gave us options including an evaluation of keeping our current system.

We are now the proud owners of a furnace so quiet you can't even tell it's running. Metzger's treated us right, worked with our budget, and our schedule.

Every new home owner should give Metzger's a call.

Sincerely,

Julie Frederick
